25X1

1. This memorandum contains a recommendation submitted for approval of the Project Director. Such recommendation is set forth in Paragraph 5.

2. Contract No. BC-450 is a Time and Material type contract covering the repair and overhaul of Project and FOG equipment previously delivered under other contracts. It also provides for in-plant engineering and related work and services as may be requested by the Contracting Officer or his representatives.

3. This Amendment No. 8 allocates additional funds for performance of work during Fiscal Year 1958. These additional funds should be obligated as follows:

4. Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956, which in effect results in all 10(b) expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 10(b) of Public Law 110, 81st Congress, for each contract.

5. Approval of Amendment No. 8 to Contract No. BC-450 and execution thereof on behalf of the Agency by the authorized Project Contracting Officer is recommended.
